Regarding how lessons are released:

Lessons are only released twice each week. Lesson one on Wednesday, lesson two on Friday, and so forth. Lessons are accessible throughout the duration of the six-week period. Therefore, if you cannot retrieve lessons in the first week, you can still complete those lessons later. The 10-day grace period for lessons actually refers to the 'discussion' area. If more than 10 days pass once a lesson is released then access to post a question for the instructor will not be available.
